FOR IMMEDIATE RELEASE

Art & Design Montreal exhibition 1st edition

Art & design montreal features an objective selection from creators in visual communications. One will find approximately fifteen photographers, graphic designers and illustrators that regularly give of their talent for the profit of commercial clients. Throughout their rising professional trajectory, they have demonstrated a certain maturity in their artistic work. The exposition aims to bridge the gap between the establishment of artistic vocation and commercial practices while offering these imagery professionals the opportunity to expose their personal and professional works. These expositions, taking place three times a year, will also serve as an event to join graphic art, advertising and photography enthusiasts as well as visual arts aficionados of visual , in a relaxed atmosphere.

Exhibition date : September 11th 2009

Mission

Art & design montreal is a creator of occasions where creatives and clients gather. By virtue of their expositions and publications, A&D will contribute to the rise of montreal design as much on the local scene as the international. A&D is a triad of exhibition spaces: on the web, in print, and the physical space from photography, illustration and graphic design through fashion and industrial design, a&d concentrates on four points of view: personal work, commercial work, the relationship to the client and the creative dimension.
